

America's Charities Fast Facts

Who We Are

America's Charities is a federation of over 180 of the nation's best-known, most-loved, and respected national and local charities. Our members are presented as a giving choice to nearly 10 million Americans in the workplace.

We are most proud of our member charities' role in improving the quality of life for people in need. They do this by serving and protecting children, conducting and funding medical research, insuring civil and human rights, feeding the hungry, supporting education, helping troubled teens, providing job training, preserving the environment, giving sanctuary to abused and abandoned animals, and serving the sick, disabled, and the poor.

Campaigns include the U.S. Government's Combined Federal Campaign, over 180 state and local government campaigns and 80 corporate campaigns, including Fortune 500 companies. America's Charities has distributed nearly \$400 million to charities nationwide from employee workplace gifts.

Quick Charity Facts

Our member charities face issues every day in thousands of local communities:

- 11.6 million poor children live in the U.S. That means nearly one out of every six children (16.2%) grow up in poverty. (Source: Children's Defense Fund)
- Over 23 million Americans need food assistance (Source: America's Second Harvest)
- 17% of pregnant women receive no pre-natal care (Source: National Center for Health Statistics)

How Your Dollars Help?

A \$1 donation per pay period will allow an individual to network with others that have the same disorder.

A \$25 donation per pay period will provide Dreamers with trips to visit out-of-state colleges and universities, showing them a little bit more of the 'world'.

A \$40 donation could sponsor two elementary school students to learn the dangers of alcohol on their developing brains and bodies as part of MADD's *Protecting You/Protecting Me* program.

A \$100 donation trains five Mayan indigenous farmers in ways to raise cattle without destroying rainforests in Chiapas, Mexico.
